

## Qsaw 101 Flex Back Carbon Band Saw Blade

Multi-application, durable saw blade constructed from high-carbon steel

### Q101 SERIES

#### Flex Back Carbon

- Ideal for wood, low alloy steels, nonferrous metals, and plastic
  - Flex back carbon steel resist blade fatigue
- 
- Versatile Material Compatibility
  - Flexible Back Design
  - Improved Blade Rigidity
  - Excellent Chip Evacuation
  - Superior Surface Finish
  - Economical Cutting

**SAWBLADE•COM®**

## Qsaw 201 Hard Back Carbon Band Saw Blade

Designed to excel in wood but tough enough to cut through low alloy steels, nonferrous metals

### Q201 SERIES

Hard Back Carbon

- Economical choice for cutting mild steels, aluminum, brass, wood
- Perform extremely well resawing wood

- Fast, precise cuts
- Precision heat treatment
- Hardened tooth edge
- Spring-tempered tips
- Improved cutting rates
- Excellent chip evacuation
